

LED Module Series

This LED Module series is designed for signboards and display lighting. It is supported by High efficiency LEDs from Nichia to provide high illumination.

These LED modules are designed with IP65 rating to cater for outdoor lighting purposes. It dissipates minimal heat output and is capable of withstanding harsh outdoor conditions.

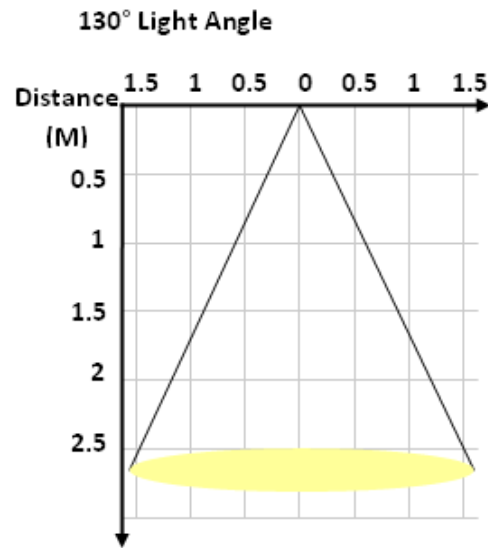

With a light weight body and an ultra low power consumption of less than 0.6 watt per module, the LED module series is perfect for both indoor and outdoor lighting purposes.

APPLICATION

- Display Lighting
- Sign Board Lighting
- Cove Lighting
- Indirect Lighting

FEATURES

- 12V Dc Driven
- High Luminous Efficiency
- Low Power Consumption
- Linear Design
- Long Lifespan

PART NO	DIMENSION (mm)	COLOR TEMP	LUMEN (lm)	POWER (W)	OPERATING VOLTAGE (V)	FORWARD CURRENT (mA)	BEAM ANGLE	IP RATING
LMP- 6S	W45 x H15 x L65	White	5~92	≤0.55W	12 V	≤42	130°	IP 65
		Warm		≤0.55W		≤42	130°	
		Red		≤0.55W		≤42	130°	
		Green		≤0.55W		≤42	130°	
		Blue		≤0.55W		≤42	130°	
		RGB		≤0.72W		≤60	130°
